<MSG>asbeatos shingles - My home here in Libby has asbestos shingles. I contacted the EPA office here about two years ago to see if anything could be done about getting them off and replaced with something a lot less hazardous I was told they would tell us how to do it and etc but we would have to do all this ourselves my husband suffers already from lung disease and could not do thqt is there anyway that we could get the epa to do this. Thank You.
